

There's a new code in town...

# Energy Code Updates for Honolulu

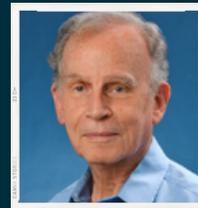

Hosted in Hawai'i Energy's training room at 45 N. King St., Suite 500, Honolulu

**Low-Rise Residential**  
**Tuesday, December 5th**  
11:30 AM - 1 PM

**Commercial & High-Rise Residential**  
**Wednesday, December 6th**  
11:30 AM - 1 PM

**Erik Kolderup, P.E.**  
Energy efficiency &  
energy code specialist

**Howard Wiig**  
Energy Analyst, State  
Energy Office & Chair of  
the State Building Code  
Council

This free workshop is approved for 1.5 AIA LU (HSW) credits & lunch will be provided!

Updates to Honolulu's building energy code take effect on November 23. Join these two free hybrid sessions, either in-person or online, to learn how these changes will affect your projects. The first session covers new energy performance requirements for large single-family homes. The second session highlights changes to envelope, lighting and mechanical requirements. This code update moves Honolulu from the 2015 to the 2018 IECC, with updated County amendments.
