

# FREE STEM-Based Workshops: Clean Energy & Energy Efficiency

Hawai'i Energy provides **FREE** fun and engaging STEM-based workshops for grades K-8. We'll come to your public, private, or charter school on O'ahu, Maui, Molokai, Lanai, or Hawai'i Island, or we're available via Microsoft Teams.

Our workshops offer 40 minutes to 1 hour of customized energy literacy content, including:

Interactive, hands-on activities designed for younger students

Key concepts around energy efficiency, climate change, and Hawai'i's clean energy landscape

Information on how students and families can contribute to a clean energy future

Introduction to concepts in earth and atmospheric science, climatology, geology, and public policy

Email [HE\\_Education@leidos.com](mailto:HE_Education@leidos.com) to schedule a workshop for your class!
