PRESSURE TO PERFORMANCE

**Compressed Air Systems
Rebates & Best Practices**

Cut energy costs & boost performance! Learn how to optimize compressed air systems + unlock Hawai'i Energy rebates.

Who should attend?

- Contractors
- Building & facility managers
- Equipment operators
- Manufacturers
- Distributors

What You'll Learn:

- Fundamentals of compressed air systems, including supply and demand-side components
- Compressor types and control strategies
- Common efficiency opportunities
- How to maximize rebates for new and replacement systems

Training led by
Taka Kokabu, P.E. :
Mechanical engineer with deep technical expertise in industrial processes & compressed air systems.

HOSTED BY

Hawai'i Energy
