

Clean Energy Ally Program

Clean Energy Allies (CEA) are a vital piece of helping residential and commercial customers implement energy efficiency projects across Hawai'i, Honolulu and Maui counties. The Ally network is comprised of dedicated contractors, architects, engineers, equipment manufacturers and retailers who are committed to educating island families and businesses about the benefit of energy efficiency, and how Hawai'i Energy's rebates and services can aid them.

Join this incredible network and learn how you and your customers can benefit!

Since program inception, our CEAs have helped businesses & residents save

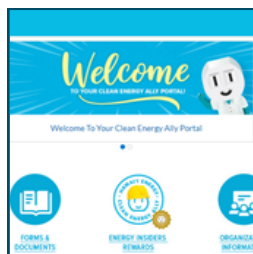

337 million kWh and
\$103 million in electricity costs

Benefits of becoming a Clean Energy Ally:

Boost your sales
with our rebates and visibility on our vendor directory

Exclusive access
to the CEA Portal and the monthly CEA newsletter

Technical assistance
on your projects from our team of energy advisors

Co-op advertising & event funding
to expand your reach

Energy Insider Rewards
for participating in Hawai'i Energy programs
