

Aa

**Air condition the smart way,**  
by closing all your windows and doors  
when the **AC** is running.

# Bb

**Build the bridge to 100% renewables**  
with energy efficiency.

Wasting less is our cheapest and easiest form of clean energy, meaning we'll need fewer fossil fuels on the path to 100%.

Learn more at  
**[bridgeto100percent.org](http://bridgeto100percent.org)**.

Cc

**Cold-water washing your  
laundry conserves energy  
and keeps colors  
vibrant—  
win-win!**

**Dd**

**Dust your refrigerator condenser coils.**  
Dirty coils mean your fridge works harder and longer, using more energy and shortening the life of the appliance.

# Ee

**E-cycle**  
your old  
household  
electronics  
at any local  
Goodwill or  
Best Buy  
for safe  
and proper  
e-waste  
disposal.

**Ff**

**Fix leaky faucets:** One drop each second can waste about 1,661 gallons of water per year—that's a lot of pumping energy!

# Gg

Get rid of  
that old  
fridge in  
the garage!  
It could  
be costing  
you nearly  
\$300 each  
year.

Hh

**Hang those bibadees!**  
Using Hawai'i's trade winds  
and sunshine to dry your  
laundry can save \$300  
per year.

li

**Invest in an ENERGY STAR<sup>®</sup> television, which is 30% more efficient than a standard TV.**

Jj

**Join a carpool club:**  
Travel more efficiently for instant  
fuel savings and friends!

# Kk

Keep  
**your cool!**

Make sure  
your fridge  
and freezer  
door seals are  
air tight. Test  
them by closing  
the door over  
a dollar bill—if  
you can pull the  
bill out easily,  
the seals may  
need replacing.

An illustration of a room interior. A large window with white horizontal blinds is the central feature, with bright yellow and orange light streaming in. A green vase with orange flowers sits on a dark wooden table in the foreground. On the table are also three books: a green one, a white one, and a red one. A bookshelf with several books is visible on the left side of the frame. The floor is dark grey with a subtle pattern. The overall style is flat and modern.

**L**

**Let there be light!**  
Natural, of course. Raise shades  
on cool days to naturally brighten  
a room.

**Mm**

**Match pans to the  
appropriately sized burners.**

Nn

**Nnatural cooling is the best!**  
**Optimize airflow with open windows  
and ceiling fans.**

00

**Off-peak**

(before 5 PM & after 10 PM)  
is the best time to use electricity.

Pp

**Power  
shower:**  
Cutting  
just two  
minutes  
per shower  
could save  
you more  
than \$400  
per year.

Qq

**Quit foiling your oven racks!**  
It blocks the flow of hot air  
and lengthens cooking times.

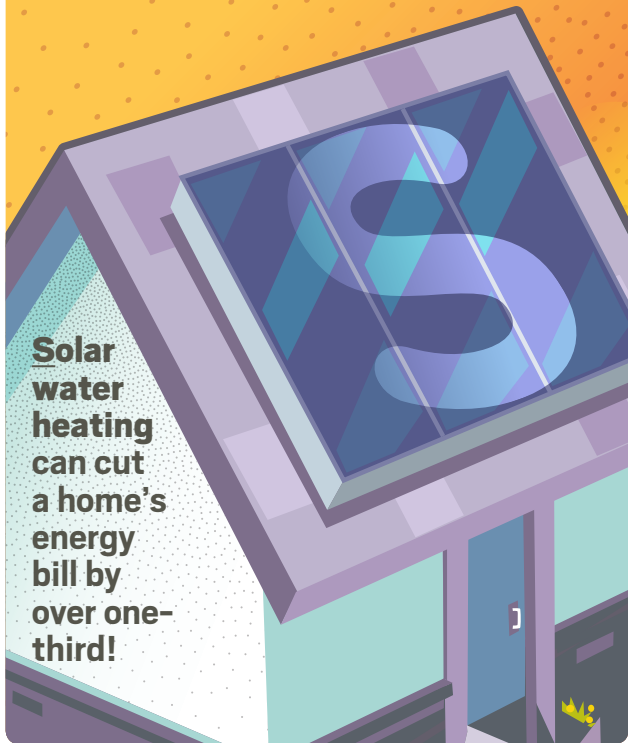

**Rr**

**Replace outdated incandescent light bulbs with light-emitting diode (LED) bulbs.**

# Ss

Solar  
water  
heating  
can cut  
a home's  
energy  
bill by  
over one-  
third!

Tt

**Thaw frozen** foods in the refrigerator before cooking to save energy and naturally cool down your fridge.

Uu

**Upgrade** your home with  
**ENERGY STAR®** appliances.

**Ww**

**Whole-house fans pull warm air out of your house. Pretty cool!**

An illustration featuring a coiled green garden hose with yellow and black stripes, set against a bright orange background with a fine white dot pattern. To the left, there are large green leaves, and to the right, a smaller green plant with several leaves is shown. A red and black spray nozzle is attached to the end of the hose. In the top right corner, the letters 'Xx' are displayed in a white, bold, sans-serif font.

**Xx**

**Xeriscape your yard  
Hawaiian style to  
conserve water and the  
energy used to pump it  
to your house**

**Yy**

**You can make a difference!**

Every individual's actions  
reduce greenhouse gas  
pollution and move us closer  
to 100% clean energy.

# Energy Bill

Zz

**Zap energy bills in half with efficient actions—it's as easy as A to Z!**
